

## REBELS PROMISE PROTECTION TO ALL FOREIGNERS

### Reports of Overthrow of Carranza Re- gime Received

## SITUATION NOT ALARMING

**BULLETIN**  
NEW YORK, May 11.—The dreadnaught Oklahoma, detached from the Atlantic fleet, sailed at 6:05 o'clock tonight for Key West for possible service in Mexican waters.

Prior to her departure, the Oklahoma took aboard a detachment of 100 marines.

WASHINGTON, May 11.—Official reports telling of the overthrow of President Carranza of Mexico, were before President Wilson and his cabinet today, but the new turn of events was understood to have been given only passing attention.

Dispatches from navy officers and state department representatives have indicated that assurances of protection to Americans and other foreigners had been given by victorious revolutionary leaders, and there was nothing of an emergency nature in the situation, officials indicated, that called for action here.

The question of recognition of the new government apparently in process of formation may arise soon. It was reported today plans for asking recognition were being pressed by revolutionists. No such request has yet been presented, however.

The fate of Carranza still remained in doubt. Official advisers threw light on his whereabouts. He was variously reported, unofficially, as a prisoner and as a fugitive after escaping his captors.

A report to revolutionary agents received in a roundabout way, told of the flight between a force sent out by General Canido Aguilar, son-in-law of Carranza, and Juan Merino, commander of an escort of one of President Carranza's trains.

The superdreadnaught Oklahoma was enroute from New York to Key West tonight, but reports from Captain Long, commanding the destroyer force along the east coast of Mexico, told of no disorder. The movement of the battleship was understood to be an additional precautionary measure.

Revolutionary forces construed selection of Juan S. Azcoena as minister of foreign affairs in the preliminary organization of a post left vacant when the organization was effected on April 23, as further indication that Carranza's overthrow and Pablo Gonzalez, former rival presidential candidate, had reached an understanding. Azcoena was campaign manager for Gonzalez.

Wire communication with Mexico City has been resumed but the censorship apparently has been rigidly applied.

**U. S. Flyers Make Observations.**  
Brownsville, Texas, May 11.—U. S. aviators who are making observations along the lower Rio Grande, reported this afternoon they were unable to locate troop movements on the Mexican side near Matamoros. They reported, however, two bridges on the Mexican National Railway between Matamoros and Reynosa were burning.

American military authorities ordered a detachment of soldiers to the American end of the international bridge where two machine guns were put in position pointing toward Matamoros.

**New Minor Engagements.**  
El Paso, Texas, May 11.—With the fate of President Carranza still in doubt, reports of a few minor engagements between federal and rebel forces along the northeastern border of Mexico reached military headquarters tonight.

Carranza forces at Sabinas, Coahuila, were routed by troops under General A. Fruenda, and after the battle a train load of wounded federals was sent to Piedras Negras, opposite Eagle Pass, it was reported.

Fighting was said to be in progress at Matamoros, opposite Brownsville, Texas, with revolutionists attacking the town.

Eight hundred laborers and their families were reported as having gathered at Monclova, Coahuila, where they were said to be seeking protection from Carranza forces.

Claiming most of Mexico as their territory, revolutionary agents here today began their share of the task of reconstruction facing a war-torn country.

**GIVES MORE TO INTER-CHURCH MOVEMENT**  
Cleveland, May 11.—At a meeting today of the field workers of the Interchurch World Movement today, John D. Rockefeller, Jr., announced he would duplicate his previous gift of \$250,000 to fund. This sum makes \$500,000 given by the Rockefeller family to the cause of the interchurch world movement and to the Baptist New World Movement.

## AMERICAN FARMERS JOIN HANDS WITH CANADIAN FARMERS

### International Board of Agriculture Formed to Promote Firmer Cohesion

CHICAGO, May 11.—Formation of an international board of agriculture to promote firmer cohesion between American and Canadian farmers, organization of a campaign for passage by congress of the Capper-Hersman bill, providing collective bargaining for farm groups and consideration of presidential candidates, leading to a possible endorsement by the farm interests, were discussed today at a meeting of the National Board of Farm Organizations and agricultural leaders of Canada.

Four Canadians were present and more than 100 representatives of 15 farm organizations in 28 states, with a reported membership of 2,000,000 took part in the meeting, to continue three days.

A committee adopted resolutions advising establishment of an international farm bureau. An other committee will be appointed to arrange for its organization.

Each farmers' organization represented will send a delegation to Chicago during the Republican national convention to urge adoption of planks favorable to the farming interests. Whether any one candidate would be endorsed would be decided later.

"We have been in close touch with the Canadian farm movement in politics," said C. A. Lyman of Washington, secretary of the National Board of Farm Organizations, "and we asked the Canadians to come that we might become better acquainted with them."

"We wish to form an international board of agriculture, which will do for the farmers of the two countries what the American Federation does for the working men; what the American Association of Commerce does for organized capital."

"An international movement has become solidified for the purpose of obtaining legislation which will permit collective bargaining for the farmers and food producers of the two countries. In Illinois, New York and Ohio farmers are permitted by state legislation to bargain collectively, while in other states they are prosecuted for it."

Among the American farm group attending is Milo D. Campbell, of Coldwater, Mich., president of the National Milk Producers' association and chosen Republican candidate for governor of Michigan by farmers.

## REPUBLICANS MEET IN INDIANA TODAY

INDIANAPOLIS, May 11.—Chief interest in the republican state convention which will convene here tomorrow centers in the decision as to instructions regarding national delegates. Harding, each polled many votes. The state law requires a majority to make instructions binding on the delegates. A spirited contest is expected, because Senator Johnson had a plurality in four of the thirteen state districts and a majority in one. Indiana has 26 delegates and four delegates at large to the national convention.

The keynote speech will be made by Senator James A. Wilson, temporary chairman. Addresses will also be made by Senator Harry S. New, permanent chairman; Governor James P. Goodrich; Will H. Hays, national chairman and Mrs. John G. Lovessouth, of Kentucky, chairman of the Woman's National Republican executive committee.

Mr. Daniels coupled with his presentation of a counter-charge that Sims had proposed and held back execution of the greatest "bold and vigorous" naval project against enemy submarines, the North Sea mine barrage.

The president gave his policy in person to officers of the Atlantic fleet, speaking aboard the flagship Pennsylvania in August, 1917. He told them he was not satisfied with the program against the submarines being made by the allies and urged them to abandon prudence and seek an audacious solution at whatever risk. He added that he was willing to sacrifice half the navy Great Britain and we together have" to crush enemy submarine nests.

Admiral Sims had refused to approve the navy department's plan for the North Sea mine barrage for six months. Mr. Daniels said. ## RADICALS LOSE FIRST FIGHT AT SOCIALIST MEET

### Advocates of the Red Flag Crushed by Conservatives

## BITTER DEBATE BETWEEN FORCES

NEW YORK, May 11.—The "red flag internationalists" of the Socialist party of America met their first real defeat in the party's national convention here today.

By vote 103 to 33, convention crushed a "radical" declaration of principles, submitted by the Illinois delegation, which provided for "dictatorship of the proletariat" and limitation of citizenship.

Bitterness of invective marked the debate between "conservative" forces of Morris Hillquit, of New York, and "radicals" led by J. Louis Engdahl, of Chicago.

"You are afraid of the dictatorship of the proletariat," shouted Engdahl. "Yet you have the dictatorship of Palmer, Wilson and Roosevelt. You can fool anybody by phrases, nor can you fool anybody with the decorations of this convention hall, the American flag, the flag of Wall street and the dictatorship of President Wilson."

"There is only one road to victory. There is only one flag, the red flag of international socialism. We can do nothing better than ally ourselves with our comrades in Russia, Italy and everywhere where they believe in international socialism."

"I see only one kind of socialism, international, world socialism."

James O'Neal of Brooklyn, arguing for the victorious "Hillquit conservative" plank coined the word dictatorship.

"Are we scientific socialists? Or are we dogmatists?" he asked.

"The time and conventions which favored the Russian revolution must be studied before we attempt to adopt them here."

"I don't like the word dictatorship. Let it go thru the country that you favor a dictatorship of the proletariat and you cease to be a political party."

Discussion of the Hillquit "declaration of principles" and "platform" program, will come up again tomorrow and the Illinois delegation has served notice it intends to fight for incorporation in it of the dictatorship principles, rejected today.

In Italy the price of all the newspapers has been doubled by royal decree. If they handle the prices for advertising by the same system over in Italy, that is certainly the country for newspaper publishers. More is promised there than even Utopia could provide.

They can talk about the world shortage of sugar and the abnormal demand but these statements will not do away with the fact that this government a few months ago had the opportunity of buying all the Cuban sugar at 6½¢ which would have resulted in a 12¢ price to the consumer. President Wilson turned the proposition down.

**JUST AN ECONOMIC SAG**  
Money is tight and that very fact is helping out with the

economy program which bankers and other financial men have been for months declaring is essential for the business well being of the U. S. The financial writers want it understood that this is not a panic but just a slump of the kind which could be expected and is really needed. "An economic sag" is the way one writer describes it.

The effort to get either of the great parties to inject the wet and dry question in their platforms and to favor some measure that will help lighten provisions of the prohibition amendment is doomed to disappointment. The Democratic convention in Illinois shied away off from this proposal. The resolution referring to the matter was never heard from after it went to the committee.

## A TASK FOR THE CHURCHES

No wonder those associated with the Interchurch Movement feel that they have a task well worth undertaking. Statistics show that 53,000,000 people in the U. S.—that is, something more than half the population—have no church connection. It is granted too that the capacity of the churches now in existence is by no means taxed and several million more people could be taken care of with these same facilities without any overcrowding.

**HOW ENGLAND COULD PAY**  
England has not been able to pay interest on the debt of some-

thing more than \$4,000,000,000 of money borrowed in the war time. Last year the English people spent nearly \$2,000,000,000 for drink, a fact which has suggested to some members of parliament that it would be well for England to go dry for a few years and pay her debts.

The suggestion seems not inappropriate when it is remembered that the consumption of drink last year was 132 per cent greater than it was in 1913.

## ONE WAY TO HANDLE STRIKES

Caddies on the New York golf links went on a strike the other day demanding pay of \$1.50 per each round. The players refused to be held up and the "be your own caddy" movement gained speedy headway.

This is the kind of labor trouble that it is easy to settle if the players are willing to do the work themselves. The plan was somewhat the same as that followed at Evanston, where all the street sweepers were brought in. The streets simply were not cleaned and after a few weeks the men returned to their jobs without any change in the conditions.

## Rippling Rhymes

By Walt Mason

In the Old Time.

When I was young a shilling was pretty hard to get; for hours a man went drilling, in pools of honest sweat, before he'd fairly earned it, and when he drew his tin, 'twas seldom that he hurried it, or idly blew it in. At Christmas time he'd holler and make some kopecks fly; and he would spend a dollar the Fourth day of July. And when the three-ring circus came lumbering to town, with grafts and fakes to work us, he'd haply blow a crown. Then, having had his riot, he to his work returned, and, strictly on the quiet, he pickled all he earned. And when duff's winter found him, it didn't find him broke; he'd comforts all around him, and greenbacks in his poke. But now such san endeavor, such sense, we vainly seek; the Fourth is with us ever, and Christmas once a week. The money's coming easy, with equal ease it goes; the toiler, flip and breezy, just blows, and blows, and blows. With all wise rules digusted, he blows his wad today; cheer up! We'll soon be busted, a panic's on the way.

Henry Ogden and Miss Ethel Oden, of Roodhouse, were Tuesday visitors in the city.

## OLD JACKSONVILLE

Jonathan Neely

By Ensley Moore  
(Member Illinois State Historical Society)

Among those best known to and among the early settlers of Jacksonville, and long time prominent, was Jonathan Neely. He came here in 1834. For many years it was easy to guess that, if Col. James Dunlap was in any public business, Jonathan Neely would not be far away. As he was a tall man, of large frame—without fleshiness—it was not hard to see him.

Mr. Neely died June 21, 1884.

A Native of Pennsylvania, Mr. Neely had his birth in Huntingdon county, where he was born July 1, 1811, consequently being 73 years of age at the time of his death.

The Journal said of him then: "He was public spirited in every sense of the word and when any enterprise which was for the public good was started Mr. Neely was always among the first to give it his hearty support."

Mr. Neely was long a member of the Central Presbyterian church, supposedly coming into it from the "Old School" Presbyterian church, by which name the Central was known before 1870.

## His Family.

Mr. Neely married Miss Coolidge, of Kentucky, a sister of Mrs. William Branson, mother of Hon. N. W. Branson, a prominent citizen of Petersburg.

The Neelys were parents of several children, but one of whom grew to maturity, Miss Lettie. She was a fine young lady, a graduate of the Young Ladies' Athenaeum. She died at about twenty-five years of age.

Mrs. Neely came here about 1840, and died April 3, 1895; being about seventy-five years of age. She, and the Bransons were members of the Central Presbyterian church. Both were ladies of high character and dignity.

Mr. Neely's Activities. It is hard to say how many enterprises Mr. Neely had to do with, here. Among the earliest was as a sub-contractor under Dunlap and January (T. T.) on the first railroad of the state, the "Northern Cross". He acted as the first conductor on that line, the present extension of which is known as the Wabash Railway system. It was the first railroad, north of the Ohio and west of Pennsylvania. It was opened from Meredosia to Jacksonville in 1839.

Mr. Neely was in the flour milling business, at the Morgan Mills, in 1845 with Dunlap and Holland, and in 1853 in the planing mill of Massey, King, Neely and Co., just north of the Wabash on Sandy street, along about 1857 to 1860.

He was a deputy sheriff, sheriff in 1850, town trustee, and alderman three times; once in the council of which his brother-in-law, Mr. Branson was mayor.

In 1857 the Neelys lived on West State street, in the "Ellis house" (Chas. McDonald's), and last in the house, opposite the Dunlap House, now occupied by Mrs. Byron Gailley. He owned for a while, but did not occupy, the house 846 West State street, which he sold to William S. Hook, who was succeeded by Miss Fannie Hook, who sold to Mr. H. B. Rankin, who sold to Mr. W. R. Huckleby, the present owner.

Politically Mr. Neely was a Republican, and was employed in the South, about the time Vicksburg was occupied by the Union troops. This was along with Col. Dunlap, Quarter Master of the 13th Army Corps, it is likely.

Mr. Neely was a pleasant, unostentatious friend, with eyes which could flash when he was aroused in a good cause. And he could stand by his views.

Miss Case discussed the "Book Stall" and Miss Fairbank discussed books written on mission subjects. She brought out the fact that books on this subject are not dry reading, but on the contrary, most interesting. Current magazines are devoting much more space to missionary topics than was true in former years.

Following the program, Mrs. Brady served dainty refreshments. She was assisted by Mrs. W. Robertson, Mrs. H. C. Goebel, Mrs. Charles Johnson and Mrs. John E. Pires.

**McCOLLISTER ESCAPED THRU BATH ROOM WINDOW**

According to additional facts received here yesterday, Deputies John Roach and Dick Wheeler, accompanied by plain clothes men from the Chicago department, went to the flat where McCollister was staying.

They found their man all right, but he was given the opportunity to go into a bedroom to dress. As McCollister did not emerge when expected, the room was searched and it was found that he had escaped thru a window leading to the roof.

## HONORS AWARDED TO HIGH SCHOOL PUPILS

"J's" For Members of Debating and Athletic Teams.

Girls of the domestic science department of the high school served 6 o'clock dinner Tuesday to the members of the debating, football and basketball teams that were awarded "J's". An excellent program had been arranged for the occasion and included a reading by Miss Mary Sims and musical selections by Miss Thelma Pires.

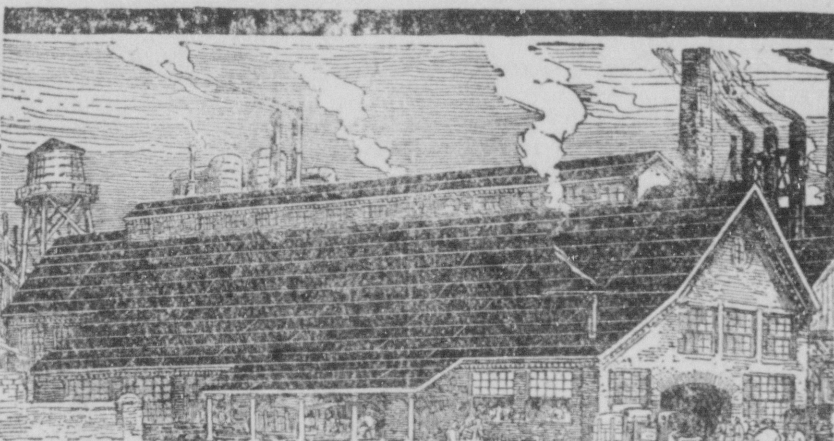

Miss English, the retiring captain, and the newly elected captain all responded to toasts and then Principal Hopkins with appropriate words presented the "J's." Paul Gard was elected captain of the football team for next year and James Wood captain of the basketball team. A fine spirit was in evidence and

the whole company enjoyed the occasion thoroughly.

While the successes of this year were worth while, the young people all declared that they looked for still better results next year. Those receiving "J's" were as follows:

Debating team—Mary Sims, Thelma Pires, Ralph Floreth, Charles Keep, Howard Nicol, Harry Fitch.  
Football team—Albin Molohon, Hunt, R. Arter, Bray, Ransdell, Gard, Cockin, Green, A. Arter, S. Reid, Lucas, Arnold, Smith.  
Basketball team—Lucas, Hunter, Hunt, Molohon, Green, Gard, Woods, Ransdell.

Sedalia, Mo., May 10.—The safety deposit vault of the Citizens' bank at Cole Camp, 25 miles south of here, was blown open today and Liberty bonds and other securities stolen. The amount of the loot has not been determined.

## Ru-ber-oid Service

Every year we receive hundreds of letters from enthusiastic Ru-ber-oid users. These letters come to us from all over the world; from at home and abroad, from the Arctic and the Tropics; telling us of the magnificent service that Ru-ber-oid roofs are giving under the most exacting conditions.

## RU-BER-OID ROOFING

is particularly adaptable to the roofs of manufacturing plants. Its rugged lasting qualities under all weather conditions have been tested by more than a quarter century of service. Under the severest tests a Ru-ber-oid roof has for years stood an inside temperature variation of more than 200 degrees Fahrenheit and an outside temperature variation of more than 70 degrees without being in any way affected.

Ru-ber-oid is fire-resisting, is unaffected by smoke or acid fumes, and is as nearly wear-proof as a quarter century of experience in the manufacture of roofing can make it. It costs more than any other ready roofing—but Ru-ber-oid service makes it worth more.

We are near your factory. Phone us today for samples and prices. We always carry a stock of Ru-ber-oid—ready for your needs.

There is but one Ru-ber-oid.  
The Standard Paint Company makes it.

## FORTY SCHOOLS IN INTERSCHOLASTIC MEET

Entries Largest in History of Illinois College Classic—Some Great Athletes are Coming—List of Cities and Entries Given.

Indications point to the greatest meet in the history of the Illinois College interscholastic meet which will be held on Illinois field next Saturday afternoon. Forty schools have made entries which is the largest number ever represented in the event. Included in this list are some of the strongest schools, from an athletic viewpoint, in the state.

Urbana which won the Eastern Normal meet at Charleston last Saturday, will bring its crack team Champaign, the runner-up, is also entered as well as Springfield, which finished third.

Perhaps the athlete who will attract the greatest attention next Saturday is Britt of Little township high school at Armington. Last Saturday Atlanta and Armington held a dual meet which was won by Atlanta by a score of 73 to 71.

An athlete was allowed to enter in as many events as he chose in the meet. Britt scored 51 of Armington's 71 points which shows he must be some athlete and he probably will make the stars from the other schools step some on Saturday. The schools and the men entered are given hereunder:

IT'S the man of farsight and vision that turns the conditions of today to his future advantage. The dollar of today looks mighty small in relation to its buying power and most of us are getting a sufficient number of those dollars to meet our current cost of living and few dollars over. But the days are not far off when that dollar will grow in purchasing power and when it does the dollars will not be so plentifully or generously circulated. The man who saves those little dollars now and puts them away in a safe Savings Bank will find they have grown tremendously in importance and usefulness when dollars are scarcer and when the spendthrifts and improvident have carelessly failed to conserve against future opportunity and need.

Now is the time to save—now while the dollars are easy to get. You cannot "eat your cake and have it too." So let's save the cake for a time when it will be most substantial and harder to procure.

Save those little 1920 dollars. They'll be mighty big dollars in 1925, or before.

### "MIKADO" CAST READY

Much interest is being manifested in Jacksonville concerning the presentation of "The Mikado" tomorrow evening (Thursday) at the Opera House.

The revivals of those operas which are familiar to the public are always thoroughly enjoyed. The cast in this performance is chosen from among some of the best voices in the city and those in charge have given careful attention to correctness of detail. Mrs. C. A. Barnes, Mrs. F. E. Farrell and Miss Carrie Dunlap are acting as costume committee, and have devoted much time and attention to the costumes for chorus as well as principals. The Japanese apparel for both sexes offers great opportunity for picturesqueness and variety of color, and the lavish use of flowers is not only feasible but almost essential for reproducing "local color."

Mrs. Winifred Kate James, who is directing the staging of the opera, is planning an elaborate setting with interesting light effects. Mrs. James is most complimentary over the cast, and says the opera should be an even greater success than "The Chimes of Normandy," which was given under her direction three years ago in Jacksonville. Her efficient work at that time will be remembered by all who were connected with the production. It is indeed remarkable, the results she gets with comparatively few rehearsals, and her experience in dramatic training is evident in every moment of the opera.

A twenty piece orchestra adds very materially to the catchy music of the score—the kind of music that everyone hums for weeks afterward.

Following is the complete cast of The Mikado: The Mikado of Japan, Mr. George Gunn; Nanki-Poo, (his son,) Mr. Charles H. Keep; Ko-Ko, (Lord High Executioner,) Mr. Charles Capps; Pooh-Bah, (Lord High Everything Else,) Mr. Robert Shoemaker; Pish-Tush, (A Noble Lord,) Mr. Carlyle Antrobus; Yum-Yum, Pitt-Sing, Peep-Bo, (three sisters—wards of Ko-Ko,) Misses Edna Hackett, Lorine Dewese and Ethyl Hughes; Katisha (an elderly lady, in love with Nanki-Poo) Miss Ruth Melba Armstrong. Chorus of school girls, nobles and guards.

## WILL GIVE SHOWING OF FORTUNE TELLER

Robertson-Cole Will Present Famous Screen Feature to Audience of Theatre Managers, Newspaper Men and Invited Guests—Film Will Be Shown at Grand at 10 o'clock This Morning.

H. D. Dwyer of St. Louis, representing the Robertson-Cole special screen features, will present "The Fortune Teller" at the Grand Theatre this morning at 10 o'clock.

"The Fortune Teller" was written by Leighton Graves Osmon and it became famous as a stage play. It was given its Broadway premiere by A. H. Woods.

The screen version was directed by Albert Capellani. The company believe they have one of the best pictures ever produced. It has been shown in this city before and it is for this reason that the performance is being given.

At this performance the audience will be composed of picture theatre managers, newspaper men, and invited guests. Mr. Dwyer wishes to sell "The Fortune Teller" to one of the local picture houses and it is for this reason that the performance is being given.

Speaking of the picture Tuesday evening Mr. Dwyer said that it was even greater on the screen than when shown on the legitimate stage. The showing here this morning will be the first given in the state of Illinois.

"The Fortune Teller" tells a story of mother love and how it triumphs over science and every other obstacle. It is a beautiful story beautifully told and has some big and tense moments.

## TEXAS WONDER

Mr. Dwyer said that it was even greater on the screen than when shown on the legitimate stage. The showing here this morning will be the first given in the state of Illinois.

## WHITE HALL MAN DIES SUDDENLY

Body of William A. Ralston Found Monday Morning Lying on Floor of His Home—Funeral Services Today.

White Hall, May 11.—Speculation over the non-appearance of Wm. A. Ralston about his premises in the extreme south part of town, below the milk condensing plant, was rewarded Monday morning when City Marshal T. E. Conlee investigated and found his dead body lying on the floor in a house. He had apparently fallen from bed, his feet being under the bed and the face down with the body beside the bed. A chair was found on the bed, which is accounted for from the fact that Ralston evidently had an attack of some kind Friday or Friday night, and he grabbed the chair near at hand and in falling, the chair was pitched onto the bed. Some of the bed clothes were under the body.

The body indicated that he had been dead two or three days. The face was swollen, but there was not a mark to indicate violence.

The last seen of Ralston was early Friday morning, when a neighbor, R. D. Heberling, called on him and found that he was complaining of weakness from influenza. It was 9 o'clock Monday morning when the officer forced open the house and found the remains. Every door and window was so securely fastened that a crowbar was used to effect entrance. An inquest was conducted by Deputy Coroner Horace W. Foreman and in verdict he found that the deceased came to his death from natural cause.

Ralston was about 42 years of age, and had been living alone for the past few years. The family came here from the Barrow neighborhood about eight years ago, and the father died about five years ago under circumstances that caused an investigation with the result of implicating any one. There are two brothers, Charles, residing at Jacksonville, and Boone, of Jackson, Calif. The family are old time residents of Barrow, and there funeral services will be held at 2 p. m. Wednesday.

## THE NEW WATERMAN BUILDING IN CHICAGO

On Monday, May 10th the L. E. Waterman Company opened its new merchandising and customers service building at 127-129 South State Street next to the Palmer House. This building is the pioneer loop structure to be erected on State street since the beginning of the war and it embodies all of the latest improvements in modern construction and conveniences. In this building will be located the Chicago office of the company, whose annual production is more than five million fountain pens.

This building containing approximately thirty thousand square feet of floor space will be occupied entirely by the manufacturers of Waterman's Ideal fountain pen, as its Chicago office including the stock, assembling and service departments.

The Waterman building, seven stories in height is strictly fireproof and of steel construction, with caisson foundations. The interior is entirely free of columns. The mechanical equipment includes a heating plant, a mechanical ventilating system for the offices, salesroom, workrooms and toilets, two passenger and one freight elevator, and two complete pneumatic tube systems.

The exterior of the building is blue terra cotta with interesting encaustic mosaic panels in red, black and gold, establishing a new architectural feature in Chicago business buildings. There is an unusually large amount of glass area. The general offices, located on the upper floors, are lighted on three sides.

No expense has been spared in the elaborate first floor sales and demonstrating rooms. The flooring is cork tile.

On the north wall of the main floor is a tablet commemorating the inventor, Mr. L. E. Waterman, who made the first model of Waterman's Ideal Fountain pen in Kankakee, Illinois in 1887.

In size, architectural prominence, modern service equipment

and charm of decoration, it eclipses the L. E. Waterman Co. building at 191 Broadway, New York City, known the world over as the "Pen Corner."

**CAR RAN INTO PHAETON**  
As Mr. and Mrs. Charles Rose were driving in their phaeton on West State street, Tuesday night, a Ford car driven by Mr. Wright, an Illinois College student, ran into them and overturned the phaeton, both occupants being thrown to the pavement. Mrs. Rose was taken into the home of Mr. and Mrs. E. L. Kinney, nearby, and it was found that she was considerably bruised and badly shaken up.

Mr. Rose escaped injury. The accident happened just before the heavy downpour of rain. Mr. Wright, who was driving slowly, said that the glare from the lights of an automobile approaching from the east blinded him and put some of his hands out.

**MR. TURNER BUYS GILLET PROPERTY**  
Charles P. Gillett yesterday sold his residence property at the corner of Woodland Place and West College avenue to J. D. Turner, of Ashland. Possession is to be given July 1. Mr. Turner is a relative of Mrs. C. L. Mathis and Mrs. George T. Douglas, and the Mathis and Douglas families will occupy the property.

**KNIGHTS OF PYTHIAS IN REGULAR MEETING**  
Jacksonville Lodge No. 152 Knights of Pythias, held its regular meeting Tuesday evening. The rank of Esquire was conferred on Alfred Eyre and William Goebel. Brother Knight Graves, of Illinois, college made an interesting address to the members. Refreshments and a social hour followed the work.

## BASEBALL SEASON AGAIN POSTPONED

Unfinished Grounds Cause Further Postponement — Game with Dawson Cancelled.

Manager Frank Smith announced last night that owing to weather conditions and inability to get labor for the opening of the Indians' baseball season had again been postponed.

Dawson had been booked for a game Sunday, but it was cancelled. The team, which is one of the strongest in this part of the state, will be booked for a later date.

The men are working out every day and getting in trim. Sunday the team worked out with Grady back of the bat. He looks like a star and the team as a whole should be one of the strongest that ever represented Jacksonville.

Smith has called a practice for Friday evening at Jacksonville State hospital. The team will work out on the new grounds next Sunday, weather permitting. It is expected that work will be pushed on the stands and the outfield and have everything in readiness for the opening, which will be definitely announced later.

Many men are taking advantage of the \$2.50 ODD HAT sale at FRANK BYRNS' Hat Store.

Elsewhere in this issue of the Journal will be found an announcement of Russell Bros. Shows, booked to appear in Jacksonville for one week, commencing next Monday. This is now the most pretentious amusement enterprise of this nature on tour and comes here highly recommended by the press in cities where it has appeared. For its transportation 30 double length railroad cars are required, while 400 people find employment in the various departments. A feature which has been the subject of much favorable comment is the Camp Travis Military Band, which will be heard in daily concerts both on the streets and at the show grounds. Thirty real musicians compose this band and the repertoire comprises everything from jazz and ragtime to grand opera and standard overtures.

The proceedings.

The board met in special session with all present except Members Duncan and Caldwell with President Lippincott in the chair. Member Duncan came in later.

The finance committee reported Balance in building and grounds fund, \$19,000.86 High School building fund, 1,607.74 Building fund, 20,628.60 Tax levy for 1919, 42,486.94 Taxes 1920, 95,349.54 Reserve for bonds, 22,000.00 Warrants, 73,247.54 Orders, 33,003.71

The matter of coal contract for next fall was brought up and it was suggested that any contract made now would be subject to increase in mining cost and freight so that nothing would be gained by having one now and there was no action.

bert, Supervisor of Art; Maude Ryman, Nurse.

Recommendations—The following are recommended for teaching positions in the grades: Mable Peterson, Mildred George, Marceline Cowgur, Mildred E. Green, Alta Williams, Merle Dimmitt, Helen Jackson, Antionette Gouveia, Allyne Wilson.

The matter of free kindergarten was brought up. It was suggested that the late Miss Phillips had been the chief support and the expense now might be hard to raise by subscription. The board was not in financial shape to undertake the department neither was there any available room in any building for the purpose. No action.

Discuss Graduating Attire.

Member Duncan read some suggestions that had been made to him regarding dresses to be worn at the various functions during commencement season. They would involve considerable expense and the matter was discussed at considerable length. It seemed that the suggestions made to Member Duncan did not voice anything like a majority of the wishes of the class and their parents and it was the sentiment of the board that as far as possible the apparel on those occasions should not be expensive and as far as possible pupils might be encouraged to wear clothing which they have.

Some parents might be able to dress their children expensively, but others would not and it would be far from desirable to encourage anything like costliness on the occasions. Some places are decided on plain gingham of the girls.

Finally the board adopted the following:

"The board of education requests the graduates of the high school and David Prince school to dress as simple as possible for the commencement exercises, thereby avoiding unnecessary expense on families who cannot afford the added cost."

It was decided to buy a barrel of semi coat floor dressing as it had been very satisfactory in the past.

Board Discusses Play.

A long, informal discussion followed regarding the recent high school play, some features of which were regarded as too much saluting of ballet dancing. It was suggested that there was much criticism about the town regarding the high kicking indulged in by some of the cast.

The fact seemed to be that the matter was slipped through by default. Theoretically there is a class adviser who in turn consults with the principal and the superintendent but in this case some members of the class managed to have the man come here to train the pupils for the event and some things were even done on the stage that went beyond anything in rehearsal.

Some members were of the opinion that the actions of the performers were hardly in keeping with strict propriety while others hardly felt so; on the whole the matter was not approved but the action was taken.

It was suggested that hereafter all features of a school performance should be carefully investigated by proper authorities before it was presented to the public.

Adopt Thrift Resolution.

An agent of the Educational Thrift Service Co. had been in the city and explained the system to the members. In brief it is a plan by which pupils are taught economy and thrift and the saving of their money no matter how small the sums may be. The superintendent said he had seen it work successfully himself and it was suggested that it had been successful in Belleville and other places. Finally the following resolution was formally adopted:

"Resolved, that that Educational Thrift Service Inc. be and they are hereby authorized to install and maintain their system of banking in the public schools of Jacksonville, Illinois, provided a local bank can be secured by them to carry the amounts and furnish necessary supplies and service, it being agreed that there will be no expense to the board of education or the public."

It was suggested that it would be well before concrete walks were put down or other work done to place in position the electric service wire from the street or poles to the interior of the building and also to make the sewer connections. The architect is expected here soon and the matters will have suitable attention.

Adjourned.

RAIN GOOD FOR SPRING FARM WORK

The rain yesterday was welcomed by farmers. While taking the season as a whole there has been an excess of rain, the down-pour has been so heavy in some localities that the ground was beaten down hard and the rain yesterday was needed to put it in better condition for further spring work.

RETURN THOSE BOOKS.

How many of the readers of the Journal and others as well have borrowed books on their library shelves? And how many of those books have been there a long time. There are many persons who would rather starve than steal who borrow books, read them, perhaps, and then lay them by intending to return them very soon. But the convenient season fails to come and the owner loses his volumes. Only yesterday a gentleman was remarking that many of his valued volumes had been gladly loaned by him to well meaning friends who had forgotten to bring them back.

Just examine your bookshelves or any other part of the house and see if you haven't some volumes which should be returned.

Five automobile travelers, Misses Bernice Cullen and Hazel Roberts, Mr. and Mrs. F. A. Roberts and D. B. Espudge, all of Paulding, Ohio, on their way to Kansas City, passed through the city yesterday.

The name of Paulding brings up an interesting fact in the history of the Buckeye state. Three counts Allen, Paulding and Van Wrt, were named for the three captors of the unfortunate Major Andre of Revolutionary war fame. Perhaps fame is hardly the word for he was taken as a

British spy but he died like a brave man at any rate.

### AMERICAN LEGION NOTES

Each of the 171 posts in Cook and Lake counties are scouring their communities for members. Some are taking house-to-house canvasses; others are telephoning and some are using the mails for recruits. One post has established a local service bureau to solve the veterans' problems and thus bring them into the Legion. In his down-state speaking tour Commander Foreman will be accompanied by all of the Illinois Legion notables. All local civic societies will co-operate with the commander's party in putting the drive across.

The Illinois service bureau, directed by A. H. Ogle, of the American Legion commander's office here, has sent out requests to the 630 posts of the state to send in all ex-servicemen's claims for final settlement in Chicago. At a recent meeting of service men's welfare agencies here a plan of co-operation was evolved whereby the Legion service bureau will handle all cases and push them to complete adjustment. The best results are expected from this arrangement.

Has Chicago forgotten her hero dead? Edward Clifford, chairman finance committee of the American Legion in Illinois has come to the conclusion that she has, and not only Chicago, but Illinois as a state. And this because he has received only \$711.12 in contributions to the Legion fund to decorate the graves of America's dead in France and England on Memorial day.

"It seems impossible," says Mr. Clifford, in an appeal to Illinois for liberality, "that so little response should be given so worthy a cause. The national executive committee of the Legion has undertaken to find every grave and lay it with flowers, but the date less than four thousand dollars has been contributed to defray the expense. This must be due to thoughtlessness on the part of the people; it cannot be that they have forgotten so soon the service rendered by the lads who fought for us."

"Never before," Mr. Clifford's statement continues, "has money been so plentiful. Never before has war been so high. There seems small excuse for parsimony. Send in your checks, Americans, either to the newspapers or to the American Legion offices, 203 Conway building. Put Illinois over the top in this sacred duty as you did when your country needed funds during the war."

The statement commends the generosity of R. H. Donnelly & Co. post, which, when asked to contribute five dollars, raised one hundred and twenty-five.

Mrs. W. H. Davies of the east part of the county called in the city yesterday.

### HOW TO RAISE BABY CHICKS

Put Avicol in the drinking water.

Most people lose half of every hatch, and seem to expect it. Chick cholera or white diarrhoea is the trouble. The U. S. Government states that over half the chicks hatched die from this cause. An Avicol tablet placed in the drinking water, will positively save your little chicks from all such diseases. Inside of 48 hours the sick ones will be as lively as crickets. Avicol keeps them healthy and makes them grow and develop.

Mrs. Vannie Thacker, R. F. D. 3, St. Paris, O., writes: "I had 90 chicks and they all died but 32. Then I commenced on Avicol and haven't lost any since. They have grown wonderfully." It costs nothing to try Avicol. If you don't find that it prevents and promptly cures white diarrhoea, chick cholera and all bowel diseases of poultry, tell us and your money will be refunded by return mail. Avicol is sold by most druggists and poultry remedy dealers, or you can send 25c or 50c today for a package by mail postpaid. Burrell-Dugger Co., 598 Columbia Bldg., Indianapolis, Ind.

### HAS NO PAIN NOW

What Lydia E. Pinkham's Vegetable Compound Did for Mrs. Warner.

Onalaska, Wis.—"Every month I had such pains in my back and lower part of stomach I could not lie in bed. I suffered so it seemed as though I would die and I was not regular either. I suffered for a year and was unfit to do my housework, could only wash dishes once in a while. I read an advertisement of what Lydia E. Pinkham's Vegetable Compound had done for other women and decided to try it. It surely did wonders for me. I have no pains now and I can do my housework without any trouble at all. I will always praise your medicine as I do not believe there is a doctor that can do as much good in female weakness, and you may use these facts as a testimonial." Mrs. LESTER E. WARNER, R. 1, Box 69, Onalaska, Wis.

The reason women write such letters to the Lydia E. Pinkham Medicine Co. and tell their friends how they are helped is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives. Freed from their illness they want to pass the good news along to other suffering women that they also may be relieved.

# The Food Supply of the Future

**A**UTHORITIES agree that the food supply of the future depends upon the increased use of mechanical power on the farm. The tractor, motor truck, stationary gas engine, and the automobile, all dependent upon cheap, efficient motor fuel, have multiplied the efficiency of human labor, thereby increasing the acreage a man can handle.

In 1919 farmers owned 8,900,465 of the 7,523,664 automotive vehicles registered in the United States. These figures give a fair idea of the use being made of motor vehicles in producing and distributing food products.

There is no more prolific food producing area in the world than the territory served by the Standard Oil Company (Indiana).

To serve the farmers of the Middle West is a major part of the Standard Oil Company's business. For that reason the dark, green tank wagon of the Standard Oil Company (Indiana) is recognized by the farmer as serving an indispensable need in promoting the increase of food products.

Thousands of these tank wagons travel continuously, on schedule, throughout the 11 states of the Middle West, served by this Company.

During the busy season, when the farmer needs power most, this Company delivers gasoline even to the tractors in the field. Rain or shine, these wagons are on duty to help make certain that the nation's food supply shall be planted, harvested, and delivered on time.

To enable the farmer of modest means to utilize automotive machinery in cultivating an increased acreage at a lower cost per acre, the Standard Oil Company (Indiana) strives constantly to keep down the price of gasoline by increasingly efficient refining methods, and to expand and perfect its comprehensive system of distribution.

Lose to Champion Reds by Score of 9 to 4—Two Giant Twirlers Driven to Cover—Other Games in National League.

Cincinnati, May 11.—The world's champion Reds won their first game of the season from an Eastern club before a large crowd by knocking both Barnes and Douglas from the box. Eller was hit hard at times especially by Young who made three triples but he was steady in the pinches and received sensational support. Before the game the first National League pennant ever won by a Cincinnati team was raised. The flag was pulled to the top of the pole in center field by Mayor Galvin of Cincinnati and Managers Moran and McGraw. Score by innings:

### A UNIQUE ESTABLISHMENT

During a visit to a popular Indian resort Mr. and Mrs. J. Herman visited a remarkable establishment. It was called Judyville and was situated nine miles from a railroad. The proprietor was a man named Judy, related to the famous late Col. J. W. Judy, so widely known as an auctioneer of fine cattle.

This man Judy carries on an enormous business, selling everything from a knitting needle to a threshing machine and growing rich at it. He does a business of more than a million a year and his patrons are located all about him. He and his employees form a regular village and purchasers come from many miles about.

Mr. Herman says also that nowadays not all factories of first class goods are on a large scale in cities. He says at Quincy is an establishment that makes a specialty of women's skirts producing an excellent article at a fair price and enjoying a good trade. There is something of a movement in that direction at the present time.

**BUILDER AND CONTRACTOR**  
George A. Johnson, builder and contractor, 429 South Mauvais-terre street. All work guaranteed.

Mrs. C. W. Nunes of the north-east part of the county traveled to the city yesterday.

## Which Would YOU Prefer to Buy

Ask Yourself this Question,

"Shall I buy flour made away from home or shall I buy FLAVO and help my own community first?" FLAVO FLOUR is made at home from home wheat. The money spent for it stays at home to help prosperity.

Flavo is a Quality Flour, too.

There is none better and few so good. Above all it has that individual nut-like flavor imparted by the wonderful MARVEL process. That's a big point in its favor—just the flavor.

A Home Mill for Home People.

Not an empty phrase but one full of meaning to those who wish to see their community prosper and help build up its industries.

## URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading Druggist of Covington, Ky., Who Has Made Special Study of Catarrh.

### Says: Inflamed Nostrils Invite Influenza

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Arcine mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished. It's really no joke for people

who don't know about this simple recipe to be constantly sniffing and snuffing, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days.

Ask for three-quarters of an ounce of Mentholized Arcine—that's all you need and after you have mixed it with enough boiled water to make a pint, gargle the throat twice daily and snuff or spray some up the nostrils, as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.

Important Reminder: Just as soon as anyone in the family gets a cold in the head, check it at once with this same medicine.

## MOON

### MODERN MOTOR CARS

Speeding down the broad highway or drawn up to the curb in the conspicuous light of the theatre entrance, the Moon Sedan reflects your idea of what a custom-built car should be. Since Joseph W. Moon, out of a wealth of experience as a manufacturer of fine carriages, built the first Moon fourteen years ago, Moon design and coach work have set standards for motordom.

The Moon Sedan is a companion of luxury that fits into everyday use during all seasons.

There are the wide windows that close snugly and open easily. A foot-operated heater gives fire-side comfort on cold days. When warm rains or summer dust require closed protection, a ventilator adjustable from the inside keeps the interior cool with an abundance of fresh air.

## DEALINGS RESTRICTED

### SPECULATIVE SHARES

New York, May 10.—The stock market today continued to express its further reactionary trend an accession of bearish sentiment among traders and the almost complete absence of public interest.

Dealings again were largely restricted to selected speculative shares and it required no great degree of selling pressure to effect additional impairment of quoted values, except among "pooled" issues.

Some substantial rallies occurred in the later dealings, but these resulted more from short covering than actual demand. The only significant feature of the later rebound lay in the fact that it was accomplished in the face of a 10 per cent rate for call loans as against the early quotation of 7 per cent.

The oil industry almost alone seemed exempt from disturbing conditions, although Mexican issues were subjected to wide fluctuations.

Steels and equipments made little headway. Motors and their subsidiaries also seemed in temporary disfavor. Liberty bonds were steady, but the general tendency elsewhere was in keeping with the movement in stocks.

Total sales (par value) aggregated \$9,800,000.

### CORN REACHES NEW HIGH PRICES

Chicago, May 10.—Although as a result of wet weather corn advanced today to the highest price this season, the gains did not hold well. Closing quotations were unsettled, varying from 1/2c to 1 1/2c, with July 1 1/2c to 1 1/2c and September 1 1/2c to 1 1/2c. Oats lost 1/4c to 1c. In provisions the outcome ranged from 5c off to 12 1/2c advance.

Bar that rains would delay planting had an evident bullish effect on the corn market at the opening, but a reaction quickly followed, owing to an announcement that the Chicago, Milwaukee and St. Paul railway would give a preference to grain loading during the next ten days in arranging distribution of cars. It was said, also, that another of the big western roads would take similar action.

Reports that 500,000 bushels of Canadian oats were afloat on the lakes for Chicago counted as a bearish factor in the oats market.

Provisions were governed mainly by the action of corn.
